

Antonio Borgogni's Synthetic CV

Assistant Professor and Researcher at the Department of Human Sciences, Society and Health, University of Cassino and Southern Lazio (UNICLAM).

My main research topic is the relationship between the body and the city through the theory that hypothesises the body as the analyser of the quality of city life.

PhD in Social Sciences of Sport at the University of Jyväskylä (FIN). The title of the book published as a result of the research is "Body, Town Planning, and Participation".

I taught in Teaching Mobility Erasmus at the University of Jyväskylä (FIN) and Lleida (SP).

Currently UNICLAM scientific coordinator of the EU project "IMPALA.net" concerning the enhancing of active lifestyle through light sport infrastructures, financed on the frame of the Erasmus+ Sport Program. Project leader Friederich-Alexander Universität Erlangen-Nürnberg (D). Since 2010 I have been UNICLAM scientific coordinator of two more EU projects and vice-coordinator of other two. I had been head of local unit of research in the EU project "The river as cultural infrastructures" on the frame of the Culture 2000 EU Program. Project leader Faculty of Architecture of the University of Ferrara (2004-2005).

Supervisor of three PhD candidates at the UNICLAM PhD Schools of "Civil, Mechanic, and Biomechanics Engineering" and "Electrical and Information Technologies".

External supervisor of a PhD candidate in the International PhD in Architecture and Urban Planning – IDAUP.

Member of the "Followers group" of a PhD candidate at the Faculty of Sport Sciences of the University of Jyväskylä.

In my professional career I had been head of research and action-research in several participatory town-planning actions within Local Agenda 21 and other participatory processes, both national and regional and Pedagogic chief coordinator of participatory town-planning research-actions at the Department of Architecture at the University of Ferrara.
